## BREVITIES.

### Local and General Intelligence.

Read B. F. Leete's 50-cent ad. in to-day's GAZETTE.

The Carson Tribune reports eight feet of snow at the head of the Carson river.

On the 17th inst. a Mexican by the name of Ramon Laguna was caved upon and killed in a mine at Cerro Gordo, Inyo county, Cal.

It is thought that the new Inyo county canal, which is being constructed by Carson capital, will be completed by the 1st of next April.

The preparations for the Red Men's Christmas ball are being industriously prosecuted, and there is no doubt of its proving a complete success.

The White Pine News says the friends of George W. Lewis, sent from Elko county to the State prison for life, are "a little too premature" in their efforts to have him pardoned at the next meeting of the Board.

## PERSONAL.

C. A. Bragg goes to San Francisco to-day.

Read Mrs. Beagleholes ad. in the 50 cent column.

Hon. Wm. H. Mills departed for his home last evening.

Hon. P. N. Maker left yesterday for his Lovelock possessions.

G. W. Baker and wife were passengers for San Francisco last night.

J. L. Wines and wife left to-day for Esate in Nevada to spend Christmas.

Mr. and Mrs. Brown, (see Harris), were passengers for their Oakland home last evening.

Mr. and Mrs. Pierce Evans returned from an extensive visit to New York and Boston this morning.

Hon. Jno. M. Rhodes is in from Long Valley. He reports a rock as doing well in his section of the country.

A. E. Lottrop and wife of Winnemucca, arrived on to-day's delayed train to spend Christmas with Reno relatives.

Miss Echo Loder, who has been attending school at San Jose, California, is spending her holiday vacation with her relatives in Reno.

R. L. Fulton and wife go to San Francisco to-night to spend the holidays. They will leave for a visit to the East immediately upon their return.

Dr. and Mrs. Greenlaw were passengers for San Francisco last evening, and during their absence Dave Russell will attend to those in want of dental work.

## JOINTINGS.

R. Lambert's barber shop is being well patronized by everybody capable of appreciating first-class work.

For your mid-day meals, go to J. J. Becker's Chicago Saloon, thereby saving time, money and shoe leather.

There is nothing in the line of the best family groceries that cannot be had at W. T. Craig's at bed-rock prices.

His many years of experience in the restaurant business enables C. Lemery of the Arcade, to know just how to treat all comers.

Turkeys enough for everybody and Christmas groceries in abundance at E. C. Leeper's, including fresh candies and nuts.

Patronize John Frazer's Virginia street market for your roasts, steaks, chops, on lets and Vienna, Bologna and pork sausage.

George Becker's Granite Saloon is where you will always find a warm fire, a good hot lunch and both Pacific and Fredricksburg beer.

Those who have ever stopped at the Riverside Hotel do not need to be informed that it is the finest family resort on this side of the mountains.

Miss Emma Gibbs and her polite and active assistants are kept busy waiting on ladies in want of those stylish and fashionable holiday goods.

People in want of furniture for any part of their dwellings should not fail to give E. C. Sessions a call for he is determined not to be undersold by anybody.

If you are looking for a holiday present that will be sure to please the old, middle aged, youth or infant, examine C. A. Thurston's stock which he is offering at rates that enables everybody to purchase.

To undertake to examine all the nice holiday presents to be seen at C. J. Brooks' variety store would be a hopeless task, for Mr. B. seems to have anticipated the wants of every child in the land besides the most of older people.

## SILVER WORKERS.

Hon. Thomas Fitch Doing Good Work for Nevada Miners.

The committee of nine appointed by the St. Louis Silver Convention to supervise the printing in pamphlet form the proceedings of that Convention for general distribution throughout the country, and to formulate a plan by which the friends of the white metal may pool their issues in the interest of free coinage, will meet in Washington about January 10th to compare notes. At the request of the committee before leaving St. Louis, Hon. Thomas Fitch of Reno and two other members of the committee accepted the task of performing the principal part of the labor required and report the result of their deliberations to the whole committee at a later date. Every member of the committee is expected to be present at the meeting in January, when active warfare in the interest of silver will commence.

## Advice to Mothers.

Mrs. Winslow's SOOTHING SYRUP should always be used for children teething. It soothes the child, cures the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle. By mail.

## NEW TO-DAY.

**F. AND A. M. NOTICE.**

A SPECIAL COMMUNICATION OF Reno Lodge, No. 13, F. & A. M., will be held at their hall Friday evening, December 27, 1889. Installation of officers. All Masons and families are invited to be present. By order of the W. M. S. M. JAMISON, Secy.

## UNFAIR PRIZE FIGHT.

**Jem Smith No Match for Slaven.**

## A TERRIBLE MINE DISASTER.

**A Wrecked English Steamship Raised.**

**Salisbury's Early Views Upon Boy Improving.**

## A Sample of English Fairness.

BRUSSELS, Dec. 23.—The fight between Jem Smith of England and Frank Slaven, the Australian champion, was fought this morning in private grounds, three miles from Bruges. There was much squabbling from the outside, and owing to the outrageous conduct of Smith's party, the conclusion of the fourteenth round the referee declared the fight a draw and ordered to remain on the ground. Smith's party evidently saw their man would be beaten and broke into the ring and interfered with a fair progress of the fight.

Slaven forced the fighting at the start, hitting Smith several times on the chest and head. In the first two rounds the men fell together, and when Slaven rose he was bleeding from the mouth. In the third round Smith got home with his right and left and in return was knocked down by Slaven.

The fourth round was marked by hand fighting. In the sixth round Slaven landed a terrible blow on one of Smith's eyes. In the seventh round Smith fought to the ropes, where a crowd of Smith's friends kicked Slaven who, however, remained silent. In the eighth round Slaven again knocked Smith down, and in the ninth the mob surrounding the ring struck Slaven several times.

In the eleventh round Slaven again knocked his opponent down. In the thirteenth round Smith's friends again struck Slaven, but their men were once more knocked down. In the fourteenth round Slaven protested against the treatment he was receiving and appealed to the referee for fair play. His appeal was greeted with derision by Smith's friends, who shouted "Police," and bolted from the grounds.

Slaven remained in the ring and Smith, who had left when his friends ran away, returned. The referee then said it was impossible to secure fair play for Slaven and declared the fight a draw. Slaven was left of fight to the finish.

LONDON, Dec. 23.—Reports have been received here of the Smith-Slaven prize-fight in Belgium. It says Slaven showed all through the fight that he was the better man. There were a number of roughs at the ring side armed with knuckle-dusters and sticks and they tried to reach Slaven over the ropes, and the Australian was struck several times. At the end of the thirteenth round Smith left the ring and Slaven remained and claimed the fight, but the referee would not award it to him. After a short time Smith returned to the ring. During the next round there was great uproar all around the ring. At the close of the round Smith was very sick, but Slaven was perfectly well. The fight lasted 22 minutes. It was reported at one time that Slaven had been killed, but the report proved false.

## Terrible Mine Accident.

SAN ANDREAS, Cal., Dec. 23.—A cave occurred at the Lane mine, Angel Camp, Calaveras county, yesterday afternoon, burying sixteen men, and there is no prospect of getting them alive. Nearly all the victims had families.

The details of the mining disaster at Angels yesterday are very meagre, as there is no telegraphic communication with the camp. It is understood that the cave was caused by the heavy rains soaking the earth, and it is feared the sixteen miners who were at work near the cave were crushed to death. The mine was owned by Hayward & Hobart. A correspondent has gone to the scene and will send particulars this evening.

## A Raised Steamer—Reviewing Salisbury.

By Cable and Associated Press.]

LONDON, Dec. 23.—The steamer Sultan, which in March last struck a rock and sank in the Comino Channel, near Malta, and which was subsequently raised, arrived at Spithead to-day under her own steam.

The Liberal newspapers have unearthed a speech made by Salisbury twenty-five years ago, and are now using it to show that the Tory Premier held very liberal views with regard to the Government of Ireland.

## Union Pacific Railroad.

By Associated Press.]

Boston, Dec. 23.—President Adams of the Union Pacific says the Oregon Short Line Consolidated Company has now a clear field with no floating debts, and its accounts with the Union Pacific were discharged through a recent settlement, under which the Union Pacific took bonds for the advances made.

The Oregon Short Line will suffer a loss of half a million dollars this year through the Oregon Northern, but will nevertheless earn a surplus over all interest charges. The deficit next year will be much smaller if not wholly wiped out. The Oregon Short Line has got through with its trials. The country through which it runs is growing rapidly, and the Union Pacific would not to-day be earning any surplus over its interest charges but for the business done with the Oregon Short Line. The entire Union Pacific system will only build 200 miles of additional road next year—145 miles on the Oregon Short Line system to Pioche; 35 miles to connect the Cheyenne & Northern with the Elk Horn division of the Chicago & Northwestern, and 20 miles to make some connections in Kansas. All stories now current in the newspapers as to the plans, extensions and purchases of the Union Pacific on the Pacific Slope, are pure inventions, absolutely without basis.

## What Silcott Left.

By Associated Press.]

WASHINGTON, Dec. 23.—There was delivered to the United States Treasury this morning a large package with the following inscription: "Contents of the cash compartments of the safe of the Sergeant-at-Arms of the House of Representatives, sealed for the purpose of delivery to the Treasurer of the United States Government, pursuant to a resolution of the House, adopted December 21st."

It is signed by Sergeant-at-Arms Leedom, Congressman Adams of the Silcott Committee, Assistant Treasurer Whelpley and two expert accountants. The package contains upwards of \$8,300 in notes, checks and other securities, representing the money left by the absconding cashier, Silcott.

## Railroad Collision.

By Associated Press.]

DETROIT, Mich., Dec. 23.—On the Duluth, South Shore & Atlantic Railroad yesterday a freight train ran into the rear of another. Brakeman Ryan, who was asleep in the caboose of the first section, was instantly killed, and his companion, O'Connor, was fatally injured, as was also Chatham, engineer of the second section.

## Human Remains Found.

By Associated Press.]

ABURY PARK, N. Y., Dec. 23.—Several portions of human bodies, including one head, have been found on the beach between Sandy Hook and Seabright, probably being parts of the bodies of the crew of the bark Germania, wrecked at Long Branch a short time ago.

## The "Gazette's" Extra Edition.

In order that everybody in the State may know of the Board of Trade meeting Saturday night and understand the importance of the movement, the GAZETTE has published an extra edition of 2,000 copies and they will be sent to those not already subscribers.

## Delayed Trains.

The trains from the West did not arrive to-day until 2:30 P. M., the delay having been occasioned by the derailment of train No. 1, eastward bound, at Cascade. The 9:20 A. M. train was nearly three hours late.

## Croup Can be Prevented.

We want every mother to know that croup can be prevented. There is no question about this; as it has been done in thousands of cases, and you may depend upon it that when a child takes the croup, it is owing to the negligence of its parents. True croup never appears without due and timely warning; a few hours, or a day before the attack, the child becomes hoarse. This hoarseness is the first indication of croup, and is a sure sign that croup is to follow, unless promptly and properly treated. The free use of Chamberlain's Cough Remedy as directed with each bottle, under the heading "To prevent croup" will dispel all symptoms of the disease. For sale by Osburn & Shoemaker.

## The Latest Out.

A Daily Through Car Service has been established by the Union Pacific & North Western Line between San Francisco and Chicago via Council Bluffs, thus offering to the public facilities not given by any other line. The Limited Fast Mail, which runs daily between the above points, carries the Overland Express Mail, a limited number of first-class passengers without extra charge, and is composed of Pullman Vestibule Sleepers, San Francisco to Chicago via Council Bluffs, and Chicago via Council Bluffs.

This is another indication that the Union Pacific is desirous of meeting the requirements of the people. For information in regard to this and other trains on this line, apply to J. B. Kirkland, Agent, or E. A. Holbrook, Agent, C. & N. W. Ry., San Francisco, nov29mcl

## Committee Work.

By Associated Press.]

WASHINGTON, Dec. 23.—The Ways and Means Committee is engaged to-day in the consideration of the McKinley Administration Customs bill. The committee expects a complete preparation of the bill before the hearings on the tariff begin.

A minority of the committee insists upon hearing those who favor a reduction of the tariff as well as those who favor the present schedule. The committee, therefore, when it meets after Christmas, will hear both sides.

## End of a Strike.

By Associated Press.]

PITTSBURGH, Dec. 23.—A majority of the coal miners of the Monongahela Valley Company resumed work to-day at the half a cent per bushel advance in the mining rate demanded by the miners. All the mines will be in operation in ten days, and the resumption will give employment to nearly 5,000 men who have been on a strike for two months.

## Boundary Dispute.

By Associated Press.]

WASHINGTON, Dec. 23.—The Supreme Court of the United States to-day granted the Senate of Virginia leave to file a complaint against the State of Tennessee in the matter of the disputed boundary line of the two States. The subpoenas were directed against the Governor and Attorney-General of Tennessee.

## More English Capital.

By Associated Press.]

MINNEAPOLIS, Dec. 23.—It is reported on apparently good authority that C. O. Washburn's flour mills have been sold to the English syndicate which recently bought the Pillsbury mills and elevators. The syndicate now controls the flour production and storage capacity of the Northwest.

## Emin Improving.

By Cable and Associated Press.]

ZANZIBAR, Dec. 23.—It is thought Emin Pasha is recovering from the effects of his accident at Bagamoyo. The German doctors attending him say it will not be safe to remove him inside of three weeks.

## A Runaway Match.

The Board of Trade.

Saturday night's meeting is a step that means much for Nevada and her future. It is the most important that has ever taken place in the State, and a better feeling prevails already. Nevada people are in such a little narrow rut that it is hard to lift ourselves over, and we are prone to look on the dark side of life and say that we have no future beyond the few acres now under cultivation; silver is down and our mines are idle; but if silver was at par we would be all right. But we do not stop to think that if silver was on an equality with gold that California, New York and other places would continue to reap the benefit of our surplus production as they have in past years, because we have nothing here to keep it at home. But let a wise and judicious system of irrigation be inaugurated and our arid lands brought under cultivation and we then will have something tangible to attract the attention of capital. All wealth comes out of the soil, and the State that depends on speculative properties will sooner or later come to grief, while the State that has land and water will flourish and become great. The Gazette has always contended that Nevada possessed many superior agricultural advantages. With a soil rich in everything that goes to make good land, inexhaustible in its nature, with water enough running to waste every year to put nearly every acre under a high state of cultivation, we can see no reason why the attention of wealth could not be called to the subject and enlisted in the grand enterprise of reclamation. The Humboldt river supplies water enough to put the whole of Humboldt valley under cultivation and will readily support 50,000 or 75,000 people. Mr. Mills, in his speech Saturday night, said that he was authorized to say that steps were being taken to accomplish this grand enterprise; that the Southern Pacific Company were to send a representative to England to raise \$2,000,000 to bring about this transformation, and why not? Is there any reason why the Humboldt valley should not be occupied to its fullest capacity, when it will pay interest on money enough to reclaim it and leave a handsome profit for the tiller of the soil?

Is there any reason why Lemmon, Prosser, Spanish Spring and Warm Spring valleys should be barren wastes when we have water enough to make them support a population of at least 50,000 people, and it can all be done for \$500,000? The inducements the enterprise offers for capital are superior and money invested in that scheme would be safer than in a bank. But to make capital see this is hard work and can only be done through an organized effort upon the part of our people.

Utah has an agricultural population of 150,000 and 150,000 more who live off the products of the country, and with not half the natural advantages that Nevada possesses.

Colorado is another example of what can be done with water if intelligently handled. That State was as much of a barren waste as Nevada is to-day, and she possesses no advantages not ours, and why then, we ask, should we be struggling for an existence when we have facilities within our grasp that will make us great and important. Let the good work go on until we can hold up our heads and lay claim to being one of the most prosperous States in this glorious Union.

Mr. Mills' visit was invaluable to the people of this State, for no man within our borders could have shown so clearly the great advantages of a Board of Trade and the ultimate good to come of such an organization as he, for the reason, perhaps, that they have never given the subject the careful thought that he has. His remarks carried weight, and he at once aroused an enthusiasm that no one else could have done, and in after years, when the Board of Trade has performed its mission, the people can thank Mr. Mills for the valuable assistance rendered in putting us on our feet.
